

## Fast Broadband for Upper Wharfedale and Littondale and Listed Buildings

If you have a listed building and are wishing to join the fast broadband network the National Park wish to assist you in finding the best location on your building for your wireless receiver. The authority will do their best to accommodate these receivers without the need for a Listed Building Planning application

Should you own/live in a listed building please telephone South Planning Team on 01969 652350 and they will advise you on where best to site your receiver.

Alternatively you can send an email F.A.O. South Team to [planning@yorkshiredales.org.uk](mailto:planning@yorkshiredales.org.uk)

The YDNPA will do their best to accommodate this project but cannot rule out the need for a Listed Building Planning Application in some cases

*(N.B. At present there is no charge for Listed Building Planning Applications)*

*Should you own/live in a non-listed property there is no need to apply for planning permission to attach a fast broadband wireless receiver to your property*
