

Tips on how to catch a bus

Do:

- Stand near the bus stop
- Listen for the bus coming
- Watch for the bus coming
- As it approaches, raise your hand and wave to attract the driver's attention
- All being well, the bus will stop and you can board.

Don't:

- Stand with your back to the road so you don't see the bus coming
- Wear headphones so you don't hear it arrive
- Ignore the arrival of the bus, because you are too busy with your smartphone / talking to your friends / asleep
- Look directly at the bus driver, but give no indication you want to catch the bus
- Ignore the bus until it has gone past, and then run after it gesticulating wildly because it didn't stop

Please note:

- *The Venturer is a white 16 seat Mercedes mini-bus*
- *It is not red, nor is it a double decker, but it is still what passes for a bus round here*
