

## Upper Wharfedale & Littondale Sustainability Working Group – update

[www.upperwharfedale.org](http://www.upperwharfedale.org) goes live!

Activity to market the area has resulted in the launch of a new website, “Life in Upper Wharfedale and Littondale” targeted at people thinking of moving to the area. It provides information about the up dale communities, education and employment opportunities and the leisure activities available. The site provides links to many local resources, as well as covering the practicalities of life in an upland rural community. It is intended to convey something of why Upper Wharfedale and Littondale are great places to live, work and bring up children. The site will be promoted through local estate agents, as well as through search engines and local websites.

The website can be found at [www.upperwharfedale.org](http://www.upperwharfedale.org)

The group would appreciate feedback about the new site, particularly ideas about what else might be included that would help attract families with children to the area. Please send your thoughts to [info@upperwharfedale.net](mailto:info@upperwharfedale.net)

The group’s work with the governors and staff of Kettlewell School on ideas to promote and celebrate the school continues.

The short term activities proposed to Buckden and Kettlewell-with-Starbotton Parish Councils and the Kettlewell School Governing Body in December have been completed before Easter as agreed. The group will now focus on developing some longer term proposals for consideration by the Parish Councils, Parish Meetings and the School Governors.
